

## **SAVA CENTER**

<http://www.savacentar.com>

The venue where the Regional Cybercrime Conference will take place is based in the ground floor of the Building A, not far away from the corridor that connects the Sava Center to the hotel Intercontinental.

The venue of the Regional Cybercrime Conference is marked with the sign 'X'.

**Moreover, the participants need not leaving the hotel to reach the venue.**

**The Sava Center is the largest conference, cultural and business centre in Serbia.**

Commissioned by the Belgrade City Assembly and built in 1977, this modern complex is situated in one of the most attractive parts of Belgrade, only five minutes away from the city centre and 15 minutes away from Belgrade's Nikola Tesla Airport. In the immediate vicinity of the Sava Center are two de luxe category hotels, the Hyatt Regency and the Belgrade Intercontinental. In effect, the Belgrade Intercontinental is connected to the Sava Center, with which it forms a unique architectural whole.

Sava Center is a modern center of an extreme local and international reputation, which has successfully organized the biggest international conventions and artistic manifestations for three decades. So far, there were over 7.000 local and international meetings and manifestations with more of 1.500.000 participants, as well as 8.000 cultural performances, with more of 7.000.000 visitors. Sava Center hosted lots of international congress meetings, like CSCE (pre-OSCE), The World Bank General Assembly, the International Monetary Fund General Assembly, the UNESCO General Assembly, 9<sup>th</sup> Summit of Non Aligned Countries, the EBRD Assembly, the World Congress of Miners, Dentists, Surgeons... as well as the place where some of the biggest world music stars performed their music.

In its two component units (Building A and Building B), the Sava Center has 15 conference halls with the total capacity of 7,000 seats, which are equipped with the state-of-the-art audio and lighting systems.
