

The VIII^o edition of **Euomeeting** is an important step forward in the development and implementation of regional policies for sustainable and competitive tourism in Europe.

Back in November 2007, when, during the V^o edition of **Euomeeting**, the Florence Charter for a sustainable and competitive tourism in Europe was signed by many European regions, universities and representatives of tourism organizations, we would never figure out that, few years later, the European Commission would have recognized to NECSTour (*Network of European Regions for a Sustainable and Competitive Tourism*) such an important role as the one envisaged in the COM/352 of June 2010.

The VIII^o edition of **Euomeeting** will introduce a brand new path towards innovation and applied research in Tourism; an experimentation of a model of indicators for the sustainable management of tourist destinations, with the aim to support the **European Commission** in creating an European Brand to promote tourist destinations. We strongly believe that with the commitment of regions, member states, universities and enterprises we will achieve this ambitious goal. We will discuss these issues and compare our experiences during **Euomeeting 2010**.

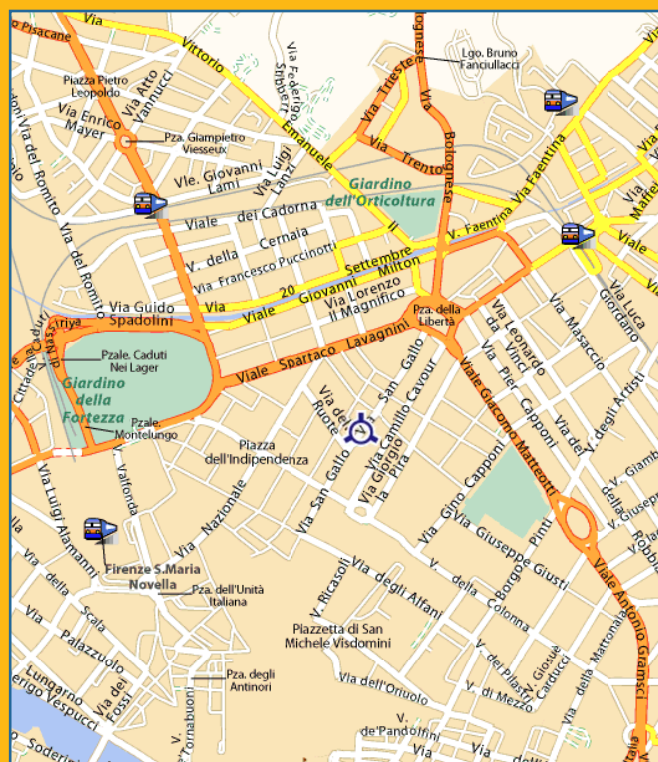

The Vice President of the European Commission Mr. Antonio Tajani will honour us of his presence thus showing the interest of the European Commission towards NECSTour and its actions.

Cristina Scaletti

Regional Minister for Culture, Tourism and Trade

This edition is organized with the support of the Council of Europe.
