Proposed by the Crisis Centre Directorate General of the Belgian Federal Department of the Interior  
*Higher Institute of Emergency Planning (ISPU), Belgium*

The meeting objectives are :

- to evaluate the role of the local and regional authorities in the following phases of the cycle of major risk management: knowledge and prevention
- to identify the difficulties encountered
- to exchange experiences and good practices in these various countries
- to determine a short and medium-term programme for the future activities of the group.

The members of the group are invited to prepare a presentation concerning the actions carried out by the local and regional authorities in the field of knowledge and prevention of major risks, to identify two problems encountered and two examples of good practices which could be useful for the others (see the document describing the objectives of the meeting (*AP / CAT ( 2009 ) 14*).
