Project's objective

European Certificate  
on Cybercrime and Electronic Evidence

- Create the first European **Academic Program** on e-Evidence and the fight against Cybercrime
- Create the **basic level**
- The Academic Program will have a technical background with a legal framework, at both National and European level
- The project aims to promote:
  - **judicial cooperation in Europe**
  - **strengthen an authentic European Space of Justice on the basis of mutual recognition and confidence.**
- A European Space can only be achieved through a common training schedule for all Europe on e-evidence and on combating Cybercrime.

**Project's goals** European Certificate on Cybercrime and Electronic Evidence

- Improve the knowledge of prosecutors, judges and lawyers on Cybercrime and on e-Evidence.
- Improve the mutual recognition among legal professionals
- Better protection of European citizens from the fast development of e-crimes

**Audience & Certificate** European Certificate on Cybercrime and Electronic Evidence

- **Who is the audience of this Course?**  
Prosecutors, Judges and Lawyers
- **Will they receive a Certificate?**  
At the end of the training course participants will be awarded with the 1st European Certificate on e-Evidence and the fight against Cybercrime endorsing the technical and legal knowledge they have achieved

**Why this project?** European Certificate on Cybercrime and Electronic Evidence

- There is no European Training Program on technical and legal aspects on Cybercrime and e-Evidence for judges, lawyers and prosecutors.
- **Lack of knowledge on:**
  - Technical and on legal aspects concerning Cybercrime and e-Evidence in EU countries
  - Partial National Seminars vs. resources savings by doing a European course
- **Lack of standards:**
  - No Standard European Training Program for Prosecutors, Judges and Lawyers on these themes
  - There is no common criterias
- It will improve efficiency in the fight against cybercrime

**Why is it important?** European Certificate on Cybercrime and Electronic Evidence

- Avoids the lack of knowledge of judges, prosec. & lawyers
- Improves judicial cooperation by having the same knowledge
- Exchange of best practices and information
- Avoids difficulties in providing e-Evidence in Court
- Avoids insecurity & chaos due to the lack of knowledge
- Generates trust on e-Evidence and combating cybercrime
- Common approach in order to fight Cybercrime

**Activities** European Certificate on Cybercrime and Electronic Evidence

**Three types of activities:**

- **Creation of the Academic Program: Expert Committee will:**
  - Draw it up & Develop it
  - Create the academic material: Syllabus & CD
  - Create the papers to be presented during the Seminars
- **Organization of the Seminars/Courses: 14 Seminars**
  - Duration: 4 days Seminar • Organized in 14 different countries
  - European experts will be the speakers
- **Creation of the 1st e-Library on e-Evidence and Cybercrime:**
  - Will contain: legislative texts, case law, expert articles
  - Free access
