

# Platform to promote the protection of journalism and safety of journalists

>

An error occurred while processing the template.

The following has evaluated to null or missing:

```
==> MultiVMPoolUtil.getCache(SojPortlet.getPortletId()).get(PK_Key) [in template "10453#10490#34558656" at line 210, column 25]
```

Tip: If the failing expression is known to be legally null/missing, either specify a default value with `myOptionalVar!myDefault`, or use `<#if myOptionalVar??>when-present<#else>when-missing</#if>`. (These only cover the last step of the expression; to cover the whole expression, use parenthesis: `(myOptionVar.foo)!myDefault, (myOptionVar.foo)??`)

The failing instruction (print stack trace for 1 more):

```
==> #assign alertPKs = MultiVMPoolUtil.ge... [in template "10453#10490#34558656" at line 210, column 5]
