

## Analysis of the Local authorities' involvement in major hazards management

**DURATION :** 2012 – 2013

**TARGET COUNTRIES :** Algeria, Armenia, Azerbaijan, Belgium, Cyprus, Croatia, Greece, France, Luxembourg, Monaco, Morocco

**PARTNERS INVOLVED :**

Coordinating Centre : ISPU Florival, Belgium

Other Centres: CRSTRA Biskra, Algeria , ECRM Yerevan, Armenia , ECMHT Baku, Azerbaijan

Other Partners: Service public Fédéral Intérieur, DG Centre de Crise

### OBJECTIVES OF THE PROJECT

**Global objective for 2012-2013:**

Improve the complementarity of national, regional and local action in disaster risk reduction;

**Specific objectives:**

**2012:**

Widen the survey to include other countries, update the previous results and share good practice (ongoing activity).

**2013:**

Hold a workshop.

### EXPECTED RESULTS

**2012:**

New contributions (at least Azerbaijan and Morocco + Good practice).

**2013:**

Analytical workshop.

### RESULTS OBTAINED PREVIOUSLY

The site [www.ispu.eu](http://www.ispu.eu) posts the results of the 9-country questionnaire-based survey, best practice identified and the various working documents, and allows users to complete the survey questionnaire and the best practice form online. Three workshops have also been held.

### RESULTS OBTAINED IN 2012

**Work package 1 (prepared by ISPU):**

*Description:*

Analysis of new contributions.

*Associated deliverables:*

Identification of additional good practice.

The contacts with various countries having failed to materialise, there was no opportunity to examine new contributions.

**Work package 2 (prepared by ISPU):**

*Description:*

Updating the data collected.

*Associated deliverables:*

Updated website.

For the same reasons, no updating was carried out.
