0905-0930	Welcome address and opening by President of the Republic of Croatia and the Special Representative of the Secretary General for Disaster Risk Reduction	Ivo Josipović, President of the Republic of Croatia Margareta Wahlstrom, Special Representative of the Secretary-General for Disaster Risk Reduction, UNISDR
0930-1000	Champion of Change Award	
1000-1030	Coffee Break	
1030-1040	Adoption of the Agenda	Damir Cemerin, Chair EFDRR
1040-1200	National Platform Review, Post- HFA Discussion followed by Q&A	Neil McFarlane, UNISDR
1200-1300	Lunch	
1300-1530	Group discussions on questions set 1,2 and 3	
	<i>The 1st set of questions:</i>	
	<ul style="list-style-type: none"> • What key elements do you think are missing in the consultation process based on the presentation given? Why? • What are the expectations of your government from the consultation process towards the development of the Post-2015 Framework for Disaster Risk Reduction? Why? • How do national and regional entities influence development of the Post-2015 Framework for Disaster Risk Reduction? • What are the opportunities and challenges in the national consultation process? 	

The 2nd set of questions:

- What are the key successes (or achievements) in disaster risk reduction since

implementation of the HFA in 2005 and what contributed to the successes?

- What are the major challenges (or obstacles) for disaster risk reduction? What are the underlying factors that contributed to the challenges identified?
- What are the key elements that your government will focus on in the national consultation process towards development of the Post-2015 Framework for Disaster Risk Reduction? Why?
- What are the top three significant elements for disaster risk reduction that should be addressed in the Post-2015 Framework for Disaster Risk reduction? Why?

The 3rd set of questions:

- Why disasters are not natural, but a consequence of flawed development planning and practices? How?
- What were the annual human and economic losses of disasters, triggered by natural hazards such as floods and earthquakes, accounting for direct and secondary losses, relief and recovery since 2005 in your country?
- Which development sectors have been affected by disasters since the implementation of HFA in 2005? How were these development sectors affected? And why?
- What has been done in mainstreaming disaster risk reduction into development since the implementation of the HFA began in 2005?
- What was the success or failure in mainstreaming disaster risk reduction into development planning and sectors, providing examples?

1530-1600 Coffee Break

1600-1700 Group presentations, followed by Q&A

1700-1800 Group discussions on question set 4

The 4th set of questions:

- Who is accountable for implementation of Hyogo Framework for Action whose overarching goal is to build resilience of nations and communities to disasters? How?
- Who is accountable for integrating disaster risk reduction into development planning and development sector programme? Why?
- What is the national governance structure of disaster risk reduction? What are the key elements of risk reduction governance? What elements are missing?
- How does existing risk reduction governance deal with transparency, accountability and decentralization of disaster risk reduction as part of development policy and strategy?
- What needs to be done to incorporate accountability in disaster risk reduction in development planning and practices at national and local level?

02 October 2011

Time	Topic	Chair and speakers
0830-0930	Group discussions on question set 5	
	<i>The 5th set of questions:</i>	
	<ul style="list-style-type: none"> • What progress has the government made in linking disaster risk reduction with climate change adaptation? How? • What has been done in integrating disaster risk assessment into land use and planning? How? What are the good practices and what are the lessons learned? • What action has your government taken to integrate disaster risk assessment into urban planning and development? How were the actions taken? How much did they contribute to urban risk reduction? • What has been done in making schools and hospitals resilient to disasters in your country? How were the actions carried out? What percentage of schools and hospitals became disaster resilient due to the action taken?
